

## **CONFERENCE HEALTH & SAFETY**

(As of August 26, 2021. Will be updated as new information is provided)

Planning continues with an emphasis on attendee health and safety. NGAUS will follow local mandates on the wearing of face coverings in common areas inside regardless of vaccination status. The association will include masks in the registration bags. In addition, the Mandalay Bay Convention Center and the official conference hotels observe the MGM Resorts Seven-Point Safety Plan, which includes enhanced sanitation, extra air circulation, and employee screening and temperature checks.

**Bottomline: Face coverings are required in public places to include the Professional Development Sessions and Exhibitor Hall**

**In the Mississippi Hospitality Room face coverings are not required. However we ask you put on a mask when serving yourself in the food line and leaned over the food.**

Thank you so much for your help in this regard.
